About Me

I'm a frontend developer skilled in JavaScript, React, CSS, and HTML. I build responsive, user-friendly web applications. Passionate about technology and design, I like to create visually stunning, responsive websites.

Education

Chitkara University, Chandigarh <i>Master of Computer Applications (MCA)</i>	2022 – 2024 (Expected) Chandigarh, India
Gandhi Memorial National College <i>Bachelor of Science in Computer Science</i> <ul style="list-style-type: none">GPA: 68.5%	2017 – 2020 Ambala Cantt, India

Experience

Techlive Solutions <i>Frontend Developer Intern</i>	Jan 2024 – June 2024 Mohali, India
<ul style="list-style-type: none">Assisted in the development of frontend of websites using HTML, CSS, JavaScript, and React.js library.Worked with MongoDB to manage user input data.Collaborated with team members using version control systems such as Git.Utilized VS Code as a development environment to visualize the application in web browsers.Stayed updated with the latest trends and best practices in frontend development, actively participating in workshops, online courses, and community events to enhance technical skills and knowledge.	

Projects

Movie Recommender App <i>MongoDB, Express, React, Node.js (MERN Stack)</i>	
<ul style="list-style-type: none">Developed a movie recommender app using the MERN stack, leveraging collaborative filtering techniques to improve recommendation accuracy.Implemented user authentication and authorization using JWT, enhancing application security.Performed database operations using MongoDB, ensuring efficient data storage and retrieval for the recommendation system.	
Airbnb Clone <i>React, Tailwind CSS, Node, Mongoose</i>	
<ul style="list-style-type: none">Built a replica of Airbnb's website allowing users to search for accommodations, view listings, and make bookings.Implemented features such as user authentication, search functionality, and interactive map display.Utilized Firebase for backend services like user authentication, real-time database, and hosting.	
Personal Portfolio Website <i>HTML, CSS, JavaScript</i>	jspuja.github.io/Portfolio/
<ul style="list-style-type: none">Developed and designed a personal portfolio website to showcase my projects and skills.Implemented a responsive design ensuring compatibility across various devices and screen sizes.Integrated dynamic content using React, improving user experience and engagement.	

Technical Skills

Languages: C++, JavaScript, HTML, CSS
Frameworks and Libraries: React
Databases: MongoDB
Version Control: GitHub
