## About Me

I'm a frontend developer skilled in JavaScript, React, CSS, and HTML. I build responsive, user-friendly web applications. Passionate about technology and design, I like to create visually stunning, responsive websites.

## Education

## Chitkara University, Chandigarh

2022 - 2024

Master of Computer Applications (MCA)

Chandigarh, India

• **GPA**: 79.1

# **Gandhi Memorial National College**

2017 - 2020

Bachelor of Science in Computer Science

Ambala Cantt, India

• Percentage: 68.5%

# Experience

#### **Techlive Solutions**

Jan 2024 - June 2024

Frontend Developer Intern

Mohali, India

- Assisted in the development of frontend of websites using HTML, CSS, JavaScript, and React.js library.
- Worked with MongoDB to manage user input data.
- Collaborated with team members using version control systems such as Git.
- Utilized VS Code as a development environment to visualize the application in web browsers.
- Stayed updated with the latest trends and best practices in frontend development, actively participating in workshops, online courses, and community events to enhance technical skills and knowledge.

## **Projects**

#### Movie Recommender App | React

- Developed a movie recommender app using React, creating a user-friendly interface for seamless movie discovery and recommendations.
- Integrated with The Movie Database (TMDb) API to fetch and display movie data dynamically, enhancing user engagement.
- Implemented state management using React hooks and Context API to efficiently handle user data and application state.
- Enhanced the user experience by implementing features like search functionality, pagination, and movie details view using React Router.

## Personal Portfolio Website | HTML, CSS, JavaScript

https://jspuja.github.io/Port-folio/

- Developed and designed a personal portfolio website to showcase my projects and skills.
- Integrated interactive elements and animations to enhance user experience. Utilized modern web development practices and tools, including Flexbox and Grid for layout, and JavaScript for dynamic content.

## Technical Skills

Languages: C++, JavaScript, HTML, CSS

**Concepts**: Object-Oriented Programming (OOP)

Libraries/Pre-processor: React, Sass Databases: MongoDB, MySQL Version Control: GitHub
